

## Link to Live Website

---

<https://vesk4000.github.io/Mentorate/index.html>

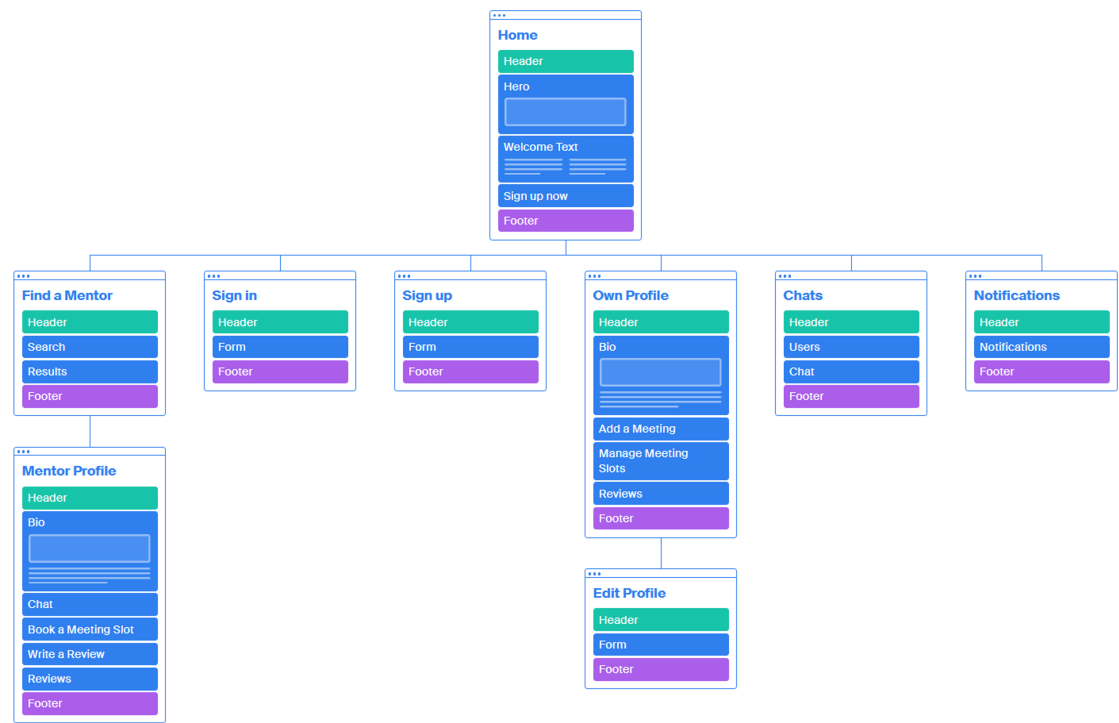

## Requirements

---

Requirement number	Description	Contributor Name
1	There should be a sign-up and sign-in feature for both mentors and mentees.	Aleksandra Savova
2	The mentors can provide available slots for meetings that will be displayed next to their profile picture when a mentee searches for a mentor ( for example, available on Thursday at 9:00 AM and Friday at 10:00 AM).	Aleksandra Savova
3	Mentees should be able to search for mentors based on their skills or job category, company, review scores, and location.	Veselin Mitev
4	The mentees will first book the meeting from the website. The booking will be confirmed when the mentors accept the meeting request. In the meeting request, the mentors will enter the purpose of the meeting and select the available dates (as mentioned in point 2).	Veselin Mitev
5	This project's mode of communication between mentors and mentees is a simple text-based chat.	Aleksandra Savova
6	Mentees will receive reward points after each successful meeting.	Veselin Mitev
7	Mentees can vote for mentors (upvotes) and provide reviews for them (score out of five and description).	Aleksandra Savova
8	The application will send a simple push notification 15 minutes before the meeting in a browser.	Veselin Mitev
